

## Unlock Real Evidence of Virtual Care Impact with LOOP™

Measure. Prove. Improve. Turn your virtual care investment into actionable insights.

# THE LOOP

by caregility

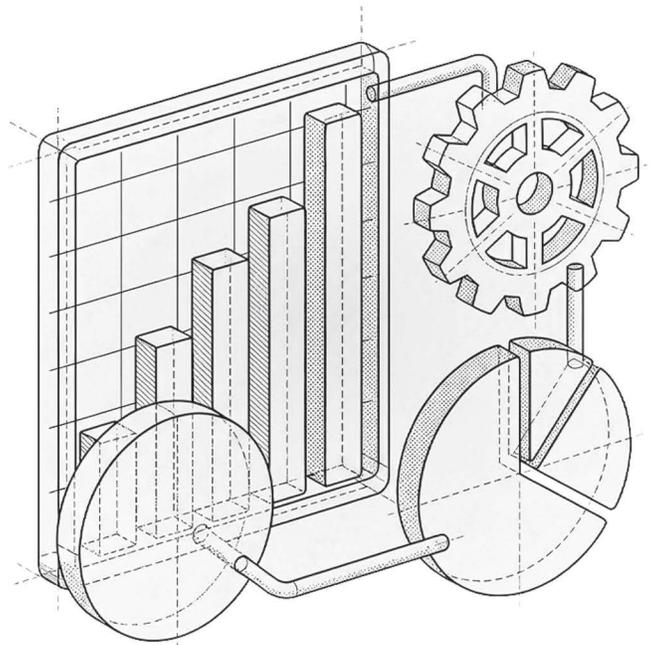

## What is LOOP?

LOOP — Lens on Organizational Performance — is Caregility's breakthrough analytics framework that helps hospitals quantify the real value of their virtual and digital health programs. It delivers **ROI, quality, staffing, and operational insights** that leadership can trust.

## Why LOOP Matters

You've already invested in virtual care — now it's time to prove it works.

LOOP enables your organization to:

### Quantify Impact

- See how virtual care affects labor costs, staffing effectiveness, and clinical outcomes.
- Track improvements in staff satisfaction and operational performance.

### Turn Data into Decision Ready Evidence

- Get executive-grade insights in a clear, evidence-based report and interactive dashboard.
- Provide hospital leaders and boards with tangible proof of value.

### Drive Continuous Improvement

- Identify opportunities to improve workflows and outcomes over time.
- Benchmark against customized hospital goals and KPIs.

## How It Works — A Simple, Low Lift Way to Measure What Matters

- Uses only a limited set of standard hospital reports — **never PHI**
- The Caregility team handles all analysis and synthesis
- Insights delivered in a **polished report and dashboard**, typically within **2-3 weeks**
- Designed for clinical, operational, and financial leaders who need decision-ready evidence

# Built for Healthcare Leaders Who Need Proof

LOOP gives you the confidence to:

- Demonstrate financial value and operational improvements
- Support workforce planning with objective metrics
- Communicate outcomes to executives, boards, and clinical leaders

## Value for Executives

- **CFOs:** Quantify cost savings, workforce impact, and utilization ROI.
- **CNIOs / Nursing Leaders:** Improve staffing allocation, enhance care team satisfaction, and detect workload imbalance.
- **CIOs / Digital Health Leaders:** Showcase the performance and scalability of virtual care programs.
- **Boards & System Executives:** Receive trusted, transparent evidence to guide strategic investment.
