

APS200 Duo

Mobility Cart

Deploy with Speed. Pay with Flexibility.

Acquire the cart as CapEx. Access the award-winning APS200 Duo through our **Accelerated Adoption Program (AAP)**. The most agile way to scale virtual care.

A Fast, Flexible Path to Virtual Care Deployment

You need to move fast without large upfront costs. Our **Accelerated Adoption Program (AAP)** provides the APS200 Duo on a simple, predictable operational expense (OpEx) subscription. Now, pair it with a robust, medical-grade cart acquired as a one-time capital expense (CapEx).

This powerful combination gives you the ultimate flexibility to scale, adapt, and optimize your virtual care footprint.

Why the AAP + CapEx Cart Model is a Game-Changer

Accelerated Adoption Program (AAP): The OpEx Powerhouse

- **Low Barrier to Entry:** Launch your virtual care program immediately without large capital outlays for technology.
- **Predictable Budgeting:** A simple monthly subscription covers the APS200 Duo device, ensuring predictable IT spending.
- **Always Current:** Includes ongoing software updates, security patches, and feature enhancements, so your technology never becomes obsolete.
- **Simplified Procurement:** Streamline acquisitions and avoid lengthy capital approval cycles for the core technology.

CapEx Cart: Own Your Foundation

- **Financial Flexibility:** Meets the needs of organizations that prefer to capitalize physical assets.
- **Future-Proof Deployment:** Own the cart permanently while having the freedom to re-deploy your APS200 Duo subscription onto a wall mount or other solution as needs evolve.
