

CLINICAL WORKFLOW LIBRARY

Workflows running on the Caregility Connected Care™ Platform

70+ Digital Clinical Workflows

Discover how health systems use the [Caregility Connected Care™ Platform](#) to improve clinical efficiency, enhance patient safety, and extend specialist expertise through workflows spanning virtual nursing, virtual observation, tele-ICU, ED, perioperative services, ambulatory care, EMS, behavioral health, and more.

The workflows below reflect care models that teams are actively running on the platform today. This is a **representative set — not an exhaustive one**. Caregility supports thousands of additional workflow variations across the care continuum. [Set up your discovery call today to learn more.](#)

Many workflows run in two operating models. Where both apply, they're marked so you can see at a glance how each can be deployed:

ROUNDING

Scheduled, systematic engagement — a virtual care team proactively connects to a defined set of patients on a cadence.

AD HOC

Event- or need-triggered, on-demand — engagement is initiated the moment a situation calls for it.

EMERGENCY & ACUTE RESPONSE

9 workflows

WORKFLOW	WHAT IT ENABLES	USE MODELS
ED Tele-Triage	Remote provider triage of emergency department arrivals to speed disposition and manage surge volume.	Ad hoc
Medical Screening Exam (MSE) / ED Throughput	Remote provider-conducted medical screening exams to move ED patients to appropriate care faster.	Ad hoc
EMS Consultation / Triage	Field-to-physician video for pre-hospital assessment, treatment guidance, and destination decisions.	Ad hoc
Critical-Care & Aeromedical Transport (incl. ET3 EMS models)	Physician support for ground and flight critical-care transport, including treat-in-place and transport-to-alternative-destination models.	Ad hoc
TeleStroke	Emergent neurology assessment for suspected stroke, including tPA and thrombectomy decision support.	Ad hoc

WORKFLOW	WHAT IT ENABLES	USE MODELS
TeleTrauma / Trauma Rapid Response	On-demand trauma-team activation and specialist support for major-trauma patients.	Ad hoc
Rapid Response & Specialty Rapid Response (OB, Cardiology)	On-demand escalation to an intensivist or specialty team for a deteriorating patient.	Ad hoc
Cardiogenic Shock Eval — Pre-Transport	Specialist evaluation of shock patients before transfer to guide stabilization and routing.	Ad hoc
TeleSANE (Sexual Assault Nurse Examiner)	Remote forensic-examiner support for survivors where an on-site SANE isn't available.	Ad hoc

CRITICAL & ACUTE INPATIENT CARE

7 workflows

WORKFLOW	WHAT IT ENABLES	USE MODELS
TeleICU	Multidisciplinary oversight of ICU patients across units and facilities — proactive surveillance rounds plus emergent intervention.	Ad hoc Rounding
Virtual Nursing	Admission, discharge, dual-nurse verification, and documentation support delivered by a virtual nurse.	Ad hoc Rounding
Virtual Preceptorship / Nurse Mentoring	Experienced nurses precept and mentor newer bedside staff from a virtual station.	Ad hoc Rounding
Virtual Hospitalist / Nocturnist	Virtual hospitalist coverage for admissions, cross-cover, and overnight (nocturnist) care.	Ad hoc Rounding
TeleNICU / Neonatology	Neonatologist oversight and consultation for NICU and high-risk newborn patients.	Ad hoc Rounding
ECMO & Advanced Cardiac Support	Remote oversight of ECMO and advanced mechanical circulatory-support patients.	Ad hoc Rounding
Virtual Observation (Telesitting)	Continuous one-to-many monitoring of fall- and elopement-risk patients with immediate staff alerting.	Continuous

Bedside access to specialists, delivered on-demand or as scheduled consult rounds. The services below are representative of specialty consults running on the platform today.

SPECIALTY	WHAT IT ENABLES	USE MODELS
Allergy & Immunology	Assessment and management of allergic and immunologic conditions.	Ad hoc Rounding
Cardiology	Cardiac assessment via inpatient consults and rounding.	Ad hoc Rounding
Cardiothoracic & Cardiovascular Surgery	Surgical evaluation and post-operative cardiac-surgery support.	Ad hoc Rounding
Colorectal Surgery	Surgical consultation for colorectal conditions.	Ad hoc Rounding
Dermatology	Skin assessment and teledermatology consults.	Ad hoc Rounding
Endocrinology	Diabetes and endocrine-disorder management.	Ad hoc Rounding
ENT (Otolaryngology)	Ear, nose, and throat evaluation.	Ad hoc Rounding
Gastroenterology	GI assessment and consultation.	Ad hoc Rounding
General Surgery	Surgical evaluation and consultation.	Ad hoc Rounding
Genetics	Genetic evaluation and counseling.	Ad hoc Rounding
Hematology & Oncology	Cancer and blood-disorder consultation and management.	Ad hoc Rounding

SPECIALTY	WHAT IT ENABLES	USE MODELS
Infectious Disease	Antimicrobial guidance and infection management.	Ad hoc Rounding
Interventional & Diagnostic Radiology	Imaging review and interventional-radiology consultation.	Ad hoc Rounding
Nephrology & TeleDialysis	Kidney-disease management and remote dialysis oversight.	Ad hoc Rounding
Neurology (non-stroke)	General neurology consultation beyond acute stroke.	Ad hoc Rounding
Obstetrics/Gynecology & Maternal-Fetal Medicine	OB/Gyn and high-risk maternal-fetal consultation.	Ad hoc Rounding
Radiation Oncology	Radiation-oncology planning and consultation.	Ad hoc Rounding
Orthopedics	Musculoskeletal and orthopedic-surgery consultation.	Ad hoc Rounding
Physical Medicine & Rehabilitation (PM&R)	Rehabilitation-medicine assessment and planning.	Ad hoc Rounding
Plastic Surgery	Reconstructive and plastic-surgery consultation.	Ad hoc Rounding
Pulmonology	Respiratory and pulmonary-disease management.	Ad hoc Rounding
Rheumatology	Autoimmune and rheumatologic consultation.	Ad hoc Rounding
Toxicology	Poisoning and overdose assessment and guidance	Ad hoc

SPECIALTY	WHAT IT ENABLES	USE MODELS
Transplant	Pre- and post-transplant evaluation and coordination.	Ad hoc Rounding
Urology	Urologic assessment and consultation.	Ad hoc Rounding

BEHAVIORAL HEALTH

5 workflows

WORKFLOW	WHAT IT ENABLES	USE MODELS
TelePsych	Psychiatric assessment and management in the ED, on inpatient units, and in clinics.	Ad hoc Rounding
Behavioral Health Integration (Collaborative Care / VBHI)	Embedded behavioral-health support within primary and specialty care teams.	Ad hoc Rounding
Individual & Group Behavioral Health Sessions	Scheduled and on-demand therapy delivered one-to-one or in a group setting.	Ad hoc
Crisis Evaluation	Rapid behavioral-health crisis assessment and safety planning.	Ad hoc
School-Based Behavioral Health	Behavioral-health access for students delivered in the school setting.	Ad hoc

PERIOPERATIVE & AMBULATORY

9 workflows

WORKFLOW	WHAT IT ENABLES	USE MODELS
Outpatient Video Visits	Scheduled provider visits for new and follow-up outpatient care.	Scheduled
Pre-Op Consults & Evaluation	Anesthesia and surgical-readiness assessment ahead of a procedure.	Scheduled
Post-Op Follow-Up / Wound Check	Recovery monitoring and surgical-site review after discharge.	Ad hoc

WORKFLOW	WHAT IT ENABLES	USE MODELS
Occupational Medicine	Employee and occupational-health assessment and injury care.	Ad hoc
Patient Registration / Check-In	Virtual intake, verification, and check-in to streamline arrival.	Workflow-driven
Care Management / Coordination	Proactive outreach and care-plan coordination across the care team.	Ad hoc Rounding
Transitions of Care (TOC)	Coordinated hand-offs and follow-up as patients move between settings.	Ad hoc Rounding
Utilization Review	Concurrent and on-demand review of level-of-care and resource use.	Ad hoc Rounding
Individual & Group Education (Diabetes, Post-Op, Lactation, ...)	Scheduled and on-demand patient education delivered one-to-one or in groups.	Ad hoc

MULTIDISCIPLINARY & ANCILLARY SERVICES

12 workflows

WORKFLOW	WHAT IT ENABLES	USE MODELS
Multidisciplinary Rounding (Pharmacy, Dietary, PT/OT, Wound Care)	Ancillary and therapy disciplines join patient rounds or respond to consults virtually.	Ad hoc Rounding
TelePharmacy	Remote pharmacist order review, dosing, and clinical consults.	Ad hoc Rounding
Virtual Medication History / Med Reconciliation	Technician- or pharmacist-led medication history and reconciliation on admission.	Ad hoc
Meds-to-Beds Discharge Pharmacy	Pharmacy-supported discharge medication delivery and counseling at the bedside.	Ad hoc
Respiratory Therapy	Remote respiratory-therapist assessment and ventilator support.	Ad hoc Rounding

WORKFLOW	WHAT IT ENABLES	USE MODELS
Vascular Access / PICC	Remote guidance and support for PICC and vascular-access procedures.	Ad hoc Rounding
Virtual Infusion / Chemotherapy Monitoring	Remote nurse oversight of infusion and chemotherapy administration.	Ad hoc Rounding
Virtual Social Work	Psychosocial assessment, resource navigation, and discharge-planning support.	Ad hoc
Virtual Chaplaincy / Spiritual Care	Spiritual-care support for patients and families across settings.	Ad hoc
Executive Leadership Patient Rounding	Nurse-leader and executive rounding on patients to capture and act on experience feedback.	Ad hoc Rounding
Patient & Family Virtual Visits / Companion	Connects patients with family and provides a virtual bedside companion.	Ad hoc
Med Room / Med Waste	Remote witnessing of controlled-substance waste and medication-room activity.	Ad hoc

CONTINUUM OF CARE — POST-ACUTE & HOME

6 workflows

WORKFLOW	WHAT IT ENABLES	USE MODELS
Hospital at Home	Acute-level care delivered in the patient's home with scheduled virtual rounds and on-demand response.	Ad hoc Rounding
Home Health / In-Home Nursing Support	Skilled nursing and clinician support delivered in the patient's home.	Ad hoc Rounding
Palliative Care	Symptom management and goals-of-care conversations across settings.	Ad hoc Rounding
Hospice Care	End-of-life support for patients and families in the home or facility.	Ad hoc Rounding

SPECIALTY	WHAT IT ENABLES	USE MODELS
Long-Term Care	Ongoing clinician access for residents in skilled-nursing and assisted-living settings.	Ad hoc Rounding
LTACH	Extended acute-care oversight for long-term acute-care hospital patients.	Ad hoc Rounding
